

## BE SEATED, GENTLEMEN

Last Night's Performance of the Lively Institute Minstrels.

## LOCAL TALENT SHONE BRIGHTLY.

And a Large and Fashionable Audience, by Its Repeated and Marked Evidences of Approval, Stamped the Entertainment as One of the Best Ever Given in the City—Many of the Numbers Would Have Reflected Credit on Professionals—The Affair Passed Off Without a Single Hitch to Mar Its Harmonious Whole.

The long heralded performance of the Lively Institute, composed of the students of the Lively Institute and under the management of the class of '95, transpired at the Arion hall last evening. It proved to be the most pleasing and successful local entertainment of its character ever given in the city, and it is not bordering on fulsome praise to say that every performer marked for the appreciative plaudits of the large and fashionable audience present fully deserved the commendation.

In the vocal line there were many surprises, several young gentlemen giving evidence of promising futures if they enter upon the cultivation of their voices. The choruses were remarkably good and tuneful, and thorough and patient training was to be remarked in every number rendered, evidently due to the painstaking instruction and direction of Prof. Raynes.

The committee in charge of the entertainment was composed of the following young gentlemen: J. K. Naylor, W. C. Sweeney, F. R. Wheat and Morgan O. Hart. The official staff was as follows: Manager, Joseph R. Naylor; musical director, Prof. J. Raynes; instructor, George Boring; stage manager, F. R. Huseman; doorknopers, C. H. Quimby and H. M. Robb; box office, G. Waterhouse.

While the curtain was somewhat tardy in going up, the audience lost nothing by the wait. The introductory part of the programme was as follows:

Interlocutor—F. R. Huseman.  
Bones, F. R. Wheat, W. C. Sweeney, H. Pollock.  
Tambourines, Joseph R. Naylor, M. O. Hart, A. A. Wilson.

VOCALISTS.  
J. E. Sweeney, W. C. North, R. Davies, J. A. Collins, W. Caldwell, S. Frank, J. Speidel, G. Caldwell.

Grand Medley Overture—By Company "Down at the Farm Yard Gate." F. R. Wheat, "I Want Yer Ma Honey." J. E. Sweeney, "Before and After Taken." J. R. Naylor, "The Girl I Love." W. C. North, "The Mighty Deep." F. R. Huseman.

The orchestra, which was composed of amateur artists, was remarkably smooth and even, although at times it was a little too heavy for the youthful voices it was leading. Mr. Wheat's "Down at the Farm Yard Gate," was a perfect gem, and he, of course, had to repeat his performance. Mr. Sweeney's "I Want Yer Ma Honey," Mr. Naylor's "Before and After Taken," Mr. North's "The Girl I Love," and "The Mighty Deep" of Mr. Huseman met with the same kindly reception. The young men were markedly self-possessed under very trying conditions, but not one of them faltered, their fresh, youthful voices coming out as clear as bells. Another remarkable and pleasantly surprising feature was that the jokes and "the noble art of repartee" were as fresh and crisp as the breezes of the early morn, with no mean wit on the side. There was not a condumnum that bore the slightest suspicion of ancient lineage or feudal ancestry.

The finale of the first part, "A Dance for a Cabbage," was a very laughable breakdown shuffe that would not have done discredit to professionals.

The second part of the programme was composed of an exhibition drill by G. Caldwell, M. O. Hart, F. R. Hailcock, A. Fair, H. Davies, J. Speidel, J. E. Sweeney and W. Caldwell, "The Black Diamonds," a comic drill by F. R. Huseman, W. C. Sweeney, J. A. Collins, S. Frank and A. A. Wilson; a burlesque speech by Joseph R. Naylor; horizontal bar performance, F. R. Wheat; mandolin and guitar selection, W. W. Wells, leader, and A. Pollock, G. Caldwell, Joseph Naylor and T. T. Carroll.

The entertainment was brought to a conclusion with a farce in one act entitled "The Doctor's Shop," the several roles being taken by J. M. Collins, G. L. Caldwell, W. C. Sweeney, A. A. Wilson, F. R. Wheat and S. Frank, which sent the audience home in an exceedingly pleasant frame of mind. Principal J. M. Risch and his associates in the faculty of the Lively Institute can congratulate themselves on the good impression the students made last evening.

## THE LAUGHLIN NAILERS

Refuse to go to Work at the Terms Offered by the Company—Details of Last Night's Meeting.

Last night the nailers employed in the Laughlin Nail Works, at Martin's Ferry, met in their hall and unanimously decided to refuse to go to work at the proposed reduction. A proposition from the company was read offering to start the works providing the nailers working on the general jobs would run eight machines at \$2.50 per day, the two spike jobs to pay \$3.50 per day.

The proposition specified that the nailers would be expected to make a full day's work, time lost by accidents to machines, the inability of boys to work and their failure to appear, etc., to be deducted from the pay of the nailers. In short, if the machines work three-fourths of a day the nailer is to be paid for three-quarters of a day's work, if they run a half day the nailer is to receive pay for one-half of a day, and if one or more machines is off this is to be deducted from the wages of the nailer.

The nailers were in session only a short time and say it was an easy matter to settle the matter, as all of those present were of the same opinion. They claim that this means a reduction of 50 or 65 per cent and they have no assurance of steady work either. One nailer said: "They not only want us to work at \$2.50 per day, but expect us to run eight machines, two more than we have been running, and no promise of steady employment."

A nailer who came to Wheeling to ascertain the prices paid the nailers at the Belmont and LaBelle mills, reported that the men there are receiving the same wages the Laughlin nailers did when the mill shut down last December.

The Laughlin nail works, which is the largest in the world, made poorer time last year than usual, mainly on account of the hard times and the wire nail. Steel nails are made exclusively at this mill. There is a good sized stock on hand.

## THE AMALGAMATED

Association Convention in Cleveland Will Be a Big One.

President Garland, of the Amalgamated Association of Iron and Steel Workers, was in Cleveland for a few hours Tuesday evening completing arrangements for the coming meeting of that organization the latter part of this month. He was at the American House for a short time, where he was seen by a reporter for the Leader. The head of the big association is modest and unassuming, and does not like to talk for publication. In response to a question concerning the outlook for the convention, he said:

"I anticipate one of the greatest meetings we have ever held. The addition to our ranks of many men engaged in the tin plate mills and the return of the finishers will have an effect on the size of the attendance. The meeting will be enthusiastic from the fact that the revival of business has had a stimulating influence in all parts of the country."

"How about the wage scale?" Mr. Garland was asked.

"That is a question I do not care to discuss before the convention," he replied. "The scale will, as usual, be a matter for our consideration. I expect that the convention will get through with it, and with the other business, in about two weeks, although it may take longer. I shall hire the hall for that length of time."

Mr. Garland remarked that he had just come from Youngstown, and dropped off at Cleveland to engage Memorial hall for the convention.

## Laughlin's Tin Mill.

Rapid progress is being made in the construction of the Laughlin tin plate works. The structural iron work will all be up inside of ten days. The brick foundations for the hot mill rolls train and engine will be commenced to-day. The stone foundation for the tin house is almost completed. There are 600 perch of stone in this one foundation. The eight large boilers and stacks are all in position. Forty or fifty bricklayers, stone masons and laborers are at work.

## "The Telegram."

It has been the policy of Manager Feiler to give his patrons something new each week, and consequently when "The Telegram" was put on the road, with dainty little Jessie Mae Hall as a star, Manager Feiler was one of the first to secure a date. "The Telegram" will be at the Grand Thursday, Friday and Saturday, May 2, 3 and 4. The piece is from the pen of the young author, Mark E. Swan, who will supervise the production personally and will be seen in a character specially adapted to him. Mr. S. W. Hall will be seen in his own creation, "The New Tramp." The following is the balance of the cast: Messrs. Danny Mann, Harry W. Groesbeck, F. G. Gold, E. L. Land, Ed. Armstrong, Misses Josie Winters, Blanche Hall, Alice Porter, Violet Livingston and Riva Tetlow.

## Will not Underseal.

General Manager and President Charles W. Franzheim, of the Wheeling Pottery, returned yesterday from Pittsburgh, where he attended the meeting of the white granite and semi-porcelain ware manufacturers. Mr. Franzheim states that the publication that the manufacturers were going to sacrifice large stocks in order to undersell jobbers who were said to have broken faith with the manufacturers, is untrue.

At Franklinville, N. Y., a young woman became a bride on what was supposed to be her deathbed. She has improved steadily since the ceremony.

## To You

The Most Important

Matter demanding attention at this season is the condition of your blood.

Your health depends upon it, for as the quality and quantity of the blood vary, you are better or worse.

The blood conveys all the elements which go to make up the organs, nerves and tissues of the body, and carries away all dissolved, useless material.

Every bone, muscle, nerve and tissue, lives upon what the blood feeds to it.

The whole world knows that Hood's Sarsaparilla is the standard remedy for making pure blood.

It possesses merit peculiar to itself and by which it effects marvelous cures even when other preparations fail.

When you buy your spring medicine get the best, and that is

## 'TIS YET SPRING.

May, the Last of the Three Great Months.

The Close of Nature's Yearly Revival Season.

Recovery is Now the Most Rapid and Lasting.

Paine's Celery Compound Makes Vigorous Nerves.

It Purifies the Blood as Nothing Else Can Possibly Do.

As a spring remedy, Paine's celery compound stands easily first in the careful judgment of the physicians of this country.

This remarkable discovery by Prof. Edward E. Phelps, M. D., LL. D., of Dartmouth college, is in fact so certainly first in the estimation of thinking men and women in every calling throughout the United States to-day that there can fairly be said to be no second.

For strengthening the sick, restoring the spent energies of those who have become nervously exhausted, for purifying the blood and making people well, Paine's celery compound has never yet been approached by any sarsaparilla, tonic or nerve. It is as superior to them all as strength is superior to weakness. The remarkable results of this great remedy are to-day known at first hand in every city and village in America.

The people are to-day thoroughly satisfied by personal experience that Paine's celery compound makes people well.

Where the nerves have not been properly fed and neuralgia, nervousness, inability to sleep, rheumatism and such evidences of debility have entered, Paine's celery compound has created a new appetite, restored lost strength and given courage, new blood, and a strong, healthy will to live and get well. Try it.

## BRIDGEPORT WANTS IT.

Would Like to Entertain the Belmont Republican Convention.

The Bridgeport Republicans and citizens generally are anxious to entertain the coming Belmont county Republican convention. The Bridgeporters also think that it should be called for an early date. It has been a long time since Bridgeport has had a convention. The town now has a commodious opera house, well suited for the purpose, and the town is the most accessible place by good county pikes and roads and by all the railroads running through the county; also by an electric line from Bellaire and Martin's Ferry. Bridgeport affords good accommodation of all kinds suitable to a convention including a good band.

The town certainly has everything in its favor and should have the convention, say the Bridgeporters. The question of where the convention will be held will be decided by the county executive committee at St. Clairsville on next Saturday.

## Wilson's Case.

The colored barber Wilson, who was arrested day before yesterday on charges of improper intimacy with Grace Grantham, aged fifteen years, was brought before Justice Gillespie yesterday evening, and after part of the witnesses had been examined the case was continued until 5 o'clock this evening.

Captain Gattis is on the Lexington's roof in the absence of Captain Cline, who is off duty on outside business.

The Scotia passed Pomeroy coming up at 3 a. m. yesterday and will be here about 5 o'clock this morning. She is making a fast trip.

The raising of the wickets at Davis Island dam has had its expected effect on the river—it has become stationary here with 5 feet 5 inches in the channel. Weather cloudy and warm.

The Scotia's crew is as follows: Captain Thomas S. Calhoun in command; mates, M. O. Schriver and Dick Pharis; clerks, R. H. Kerr, S. C. McCullough and Clayton Agnew; engineers, J. Ellis and J. Robertson; pilots, James H. Reilly, sr., and Dayton Randolph.

The attention of pilots is called to the coal barge sunk at Markland, opposite the warehouse. It is lying directly in the channel with only about seven feet of water over it. The barge was sunk in that spot more than six months ago, by the McDonald. It will prove a dangerous menace to navigation if the river falls very much more.

The Terminal bridge, according to war department figures, is 1,502 feet long; length including approaches 3,069 feet; width of channel span 500 feet; is 91.6 feet above the river at the lowest recorded stage, and 45.12 feet at stage of 1832 flood. The suspension bridge figures are: 980 feet long, above low water 91.5 feet, above high water 48 feet; steel bridge, 997 feet long, 91.12 feet above low and 47.58 feet above high water mark.
